First Aid Rural Medicine - Emergency Responder Pouch

The FARM-ER Pouch, can be stowed in a pocket or fixed to a bag, the ideal item for all serious field sports enthusiast or for people working in rural and remote locations.

C.A.T Tourniquet :

The Combat Application Tourniquet (CAT) is a small and lightweight one-handed tourniquet that completely occludes arterial blood flow in an extremity. The CAT also has a Velcro Windlass Strap for further securing of the windlass during patient transport.

C.A.T Tourniquet – Safety Orange : Available to those requiring a high visibility alternative to the black.

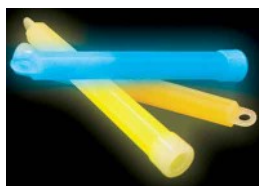

CELOX™ (pronounced Cell Locks) is a revolutionary new haemostatic agent.

Works independently of normal blood clotting factors
Simple and safe to use Not Exothermic; will not burn the victim or caregiver
works in hypothermic conditions and clots Heparinized blood safe to use for the entire body including, head, neck and chest wounds CELOX™ can be used as a fast, safe and simple emergency treatment for serious bleeding.

CELOX™ is suitable for, first responders, rural and industrial first aid, emergency services, austere medicine, adventure pursuits, professional and amateur sports and of course, as a must-have for your home or car first aid kit

Emergency Care Bandage:

Available in two sizes (4" and 6"), the Emergency Care Bandage was developed with the most extreme conditions in mind. Designed to treat every possible bleeding wound, the bandage is sterile and non-adherent, is easily wrapped and secured, and can also act as a tourniquet in cases of severe bleeding.

Cylume and Gloves

The kit also contains gloves for your own protection and chemical light stick to mark injuries or high light an obstacle on a route.
